A TRIBUTE

This collection is dedicated to my father and my father-in-law.

One taught me to see the beauty in textiles the richness of texture, craftsmanship and timeless materials. The other encouraged me to dream bigger, to build with confidence, and to believe that ideas become meaningful when they are brought to life.

Though they are no longer with us, their influence is woven into every piece. This collection is a quiet tribute to the values they passed on: passion, dedication, craftsmanship and the courage to create.
